Annual Campaign

Throughout the surrounding Morristown communities, countless people know about the Greater Morristown YMCA. But, there's so much more to our Y than one might think. From exercise to education, from aerobics to advocacy, from fitness to financial assistance, the Y doesn't just strengthen our bodies, it strengthens our minds and our communities. The Y is so much more than a gym. It's a cause - a cause dedicated to youth development, healthy living, and social responsibility. For 150 years, we've been proud to help our neighbors learn, grow, and thrive. Yet we're called to do so much more. Every day, our local communities face new challenges which create a greater need for the services we provide. Fortunately, where some see obstacles, we see opportunities for our members, volunteers, and staff to make a difference. But we need your philanthropic support to seize these opportunities. WELLNESS INFORMATION

Parkinson's Wellness:

We are learning every day that there are ways in which people with Parkinson's disease can enhance their daily quality of life and even build power, strength, and flexibility with exercise.

P.E.P for Wellness is designed to empower those living with Parkinson's disease and other chronic diseases. This program is designed to optimize physical function and help delay the progression of symptoms.

We are striving to aide in enhancing daily quality of life by building power, strength, flexibility, balance, and gait.

NOTE: Participants can use chairs for support, if necessary, and increase the weight they use for strength training at their own pace

Some Types of Exercise Best for Parkinson's:

Aerobic – e.g. brisk walking, stationary cycling – activities that get the heart pumping.

Strengthening – e.g. using weights or resistance bands– to improve muscle strength.

Balance & Flexibility – e.g. boxing, yoga, chair yoga – exercises that help you be more steady on your feet.

We have many classes on the fitness schedule that you can participate in to help you feel and function better.

Healthy Heart Wellness:

What happens after cardiac rehab? After you complete your last cardiac rehab session you move to your final phase of cardiac rehabilitation: independent and ongoing conditioning. If you have participated in the previous phases of your rehab you should have excellent knowledge about your specific condition, risk factors and strategies to maintain heart health. Independent exercise and conditioning are essential to maintaining optimal health and preventing possible future cardiac problems. Starting small and steadily building your program over time will help to set you up for success.

We offer a variety of classes and programs that can help keep your workouts from being the same every time. A group setting is also a great way to hold yourself accountable while exercising.

Not Comfortable In a Group Setting?

We offer one-on-one personal training with one of our certified Personal Trainers. Trainers can help you become familiar with equipment, design specific workout routines, and monitor your blood pressure. Working one-on-one might reduce anxiety, improve confidence and prepare you to set realistic goals while getting back to exercise in a safe way.

Multiple Sclerosis Wellness:

People with Multiple Sclerosis can exercise. With some of the common symptoms of MS, such as fatigue and declining strength and coordination, it may make the prospect of exercise daunting. Studies show that the benefits of exercise far outweigh the challenges if you have MS – as long as you remember that moderation is essential.

The best MS exercises are aerobic exercises, progressive strength training, balance training, and stretching.

Exercise can improve your fitness, endurance, and strength in your arms and legs and can give your mood a boost. Anyone with MS can modify an exercise routine to meet his or her needs. Just remember to work within your range of ability and not to overdo it. We offer a variety of classes that may help to create a routine that fits your capabilities and schedule.

Lo Impact Aerobics: Lo Impact aerobics are dynamic exercises that increase the heart rate. This form of exercise is especially good for improving lung capacity, strengthening core muscles, and improving balance, and coordination.

Additionally, using equipment like the Recumbent bikes and Nu Step may assist those with limited mobility to perform high repetition exercises to improve lost motor skills.

Water Aerobics: Water aerobics is both aerobic and resistance training exercise. You can raise your heart rate due to constant motion, but the water is a force for you to work against, providing resistance and the buoyancy makes it easier for you to move. Water aerobics is one of the best exercises an individual with MS can do.

Progressive Strength Training: Progressive Strength Training can improve muscle strength, posture, and balance. During a progressive strength training program, people start with light weights and minimal repetitions. They slowly increase the amount of weight or the number of repetitions as they build more muscle over time. This can help prevent overworking of the muscles, which can result in worsening symptoms.

Balance Training: Balance training involves performing exercises that will focus on controlling your posture. Practicing balance exercises is crucial in order to help reduce the possibility of falls.

Yoga: Yoga combines breath and movement. A gentle type class is wonderful for stretching. Doing some form of yoga daily can help improve balance, range of motion, and help with muscle spasms.

Pickleball

Pickleball is one of the fastest-growing sports in the United States. It combines elements of badminton, tennis, and ping pong. It is played with solid paddles and a perforated ball, similar to a whiffle ball, and is played on a solid court with a low net.

It is a great game for all ages and abilities and provides a cardio workout, as well as balance and eye-hand coordination training. The Pickleball group at the Y enjoys the social benefits and friendly competition.

Players are encouraged to wear athletic attire that allows for easy movement and sneakers or non-marking shoes. Tennis shoes are recommended as they provide the best stability for side-to-side movement.

SEPTEMBER 9TH, 2024 OUR 35TH ANNUAL GOLF OUTING

This day brings over 100 business leaders from the Morris County area together to aid in the Y's Annual Support Campaign, which provides direct financial assistance to underserved children, families, seniors, and the disabled in our community.

Please consider participating in this event where 100% of the proceeds go directly to finance our Annual Support Campaign fund, enabling the Greater Morristown YMCA to assure our services are available to all people, regardless of their background or ability to pay.

The following are just some of the many programs that donations to the YMCA support: scholarships to our summer camp; life saving swim lessons for the underprivileged local youth; scholarships to help local working families afford preschool and afterschool care at our centers; membership assistance for seniors, handicapped individuals, and families in need. Additionally, many Morris County social service agencies such as Jersey Battered Women's Shelter, Deirdre's House, and Homeless Solutions come to the Y for support with their most difficult cases and we never turn them away.

On behalf of the Greater Morristown YMCA, Board of Directors, and the many children and families that we help thank you in advance for your support.
